Customer Service Support

Pasig, Philippines

December 2025 – August 2026

- Managed customer inquiries and account-related concerns through phone and email, providing timely and professional support.
- Handled appointment setting, scheduling, and follow-ups, ensuring accurate coordination and a smooth customer experience.
- Maintained organized customer information and ensured concerns, requests, and follow-up actions were properly tracked and addressed.
- Coordinated with internal teams to resolve customer issues efficiently and ensure requests were followed through to completion.
- Assisted with day-to-day administrative and customer support tasks requiring strong organization, attention to detail, and time management.
- Communicated professionally with customers, demonstrating strong written and verbal communication, active listening, empathy, and problem-solving.

EMS Explained

Remote | Freelance

October 2022- December 2025

- Redesigned and improved an existing application by analyzing usability, user workflows, interface issues, and overall system experience to create a more efficient and user-friendly product.
- Translated client requirements and technical needs into practical UI/UX solutions, including user flows, information architecture, responsive interfaces, prototypes, and interactive designs using **Figma**.
- Identified usability and interface problems, recommended improvements, and applied structured problem-solving to enhance application navigation, accessibility, functionality, and overall user experience.

- Utilized **Figma, Adobe Photoshop, Canva, and other digital tools** for interface design, prototyping, visual assets, design systems, and application improvements while collaborating directly with clients throughout the development process.

Project Manager

January 2025 – June 2025

- Managed the design and development of a **mobile travel application for tourists navigating Manila attractions**, coordinating project activities, deliverables, and timelines to keep the team aligned and on track.
- Collaborated with the **Department of Tourism and Cultural Affairs** to gather requirements, understand tourist needs, present design solutions, and incorporate stakeholder feedback into the product.
- Designed user flows, wireframes, mobile interfaces, and interactive prototypes focused on **navigation, accessibility, usability, and an intuitive tourist experience**.
- Coordinated user testing and gathered feedback to identify usability issues, troubleshoot product concerns, and recommend improvements to the application's functionality and user experience.
- Worked closely with team members throughout the project lifecycle, monitoring progress, organizing tasks, resolving project blockers, and ensuring design and development deliverables were completed according to project goals and deadlines.

Manila, Philippines

New San Jose Builders Inc. - IT Intern

March 2025 – May 2025

- Contributed to the design and development of an **Employee Management System**, creating user-focused interfaces and workflows to support employee information, administrative processes, and internal operations.
- Designed **wireframes, user flows, interface layouts, and prototypes** using Figma, focusing on usability, accessibility, and efficient employee management.
- Collaborated closely with developers to communicate design requirements, clarify functionality, review implementation, and ensure the final website aligned with the intended user experience.
- Gathered and analyzed user and business requirements to identify opportunities for improving employee workflows, system navigation, and overall platform usability.
- Supported the development process through **UI/UX problem-solving, design revisions, testing, and feedback**, helping create a practical and user-friendly internal management system.
